

## **CALL FOR NOMINATIONS - Convenor of REBLs**

### **About REBLs**

REBLs...with a cause" is the inaugural Special Interest Group of Health Libraries Australia. Launched February 2007, REBLs is a pseudo acronym for Rehabilitation Evidence Based Librarians of which there are approximately 25 members.

The REBLs have developed an evidence base for collection development built on consensus agreement between expert rehabilitation specialists and librarians. This is relevant for trainee rehabilitation registrars who rotate to different hospitals every six months.

These Lists were endorsed by the Chairs of all the Australasian Faculty of Rehabilitation Medicine (AFRM) Special Interest Groups on 15th June 2009 and ratified by the AFRM Education Committee on 26th June 2009.

Additional information about the REBLs can be found at  
<http://www.alia.org.au/groups/healthnat/REBLs.with.a.cause.SIG.html>

REBLs is currently seeking a Convenor for the period 2010-2102.

### **Duties of the REBLs Convenor**

- First point of contact for all REBLs queries
- Attending to all correspondence
- Liaising with the Australasian Faculty of Rehabilitation Medicine
- Reporting to HLA Executive meetings
- Updating the REBLs website

### **Duties Split between other REBLs members**

- Moderation of the [aliarebls@lists.alia.org.au](mailto:aliarebls@lists.alia.org.au) e-list
- Notifying members of relevant rehabilitation issues via the e-list
