

Continuing Professional Development Scheme

Accessibility Specialisation Skills Audit

Welcome to the ALIA PD Scheme Accessibility Specialisation (Disability Services/Home & Mobile library/Older Australians) Skills Audit. The skills audit is designed to help you identify gaps in your knowledge and provide guidance for choosing your most appropriate continuing professional development activities.

When marking the tables, consider how well you think you can apply the skill:

Really well means that you are very proficient and have an advanced level of knowledge or skills.

Well means that you are more than just proficient, but you could still learn more about the skill.

I can do this means you are proficient and have a basic level of knowledge or skills.

More practice means that you are not quite proficient, and need to learn more about this skill or knowledge.

Learn this means that you need to learn this skill or knowledge.

No interest means that this skill or knowledge has no interest to you or the career path you are pursuing. It could also be something you may wish to learn later in your career.
